Technical Support & Troubleshooting

- **What should I do if my home internet stops working?**
  Unplug your router's power cable, wait **30 seconds**, and plug it back in. If the lights do not turn solid green within 5 minutes, check our online outage map.
- **How do I activate my new 5G SIM card?**
  Insert the SIM into your phone and visit **connecttel.com** to complete the quick activation process.
- **How can I set up Wi-Fi calling on my smartphone?**
  Go to your phone’s **Settings > Cellular/Connections**, toggle on **Wi-Fi Calling**, and follow the prompts to register your emergency E911 address.
